

Class Rules

Virgin Farm MUST HAVE!!!!

Stock Block, Stock Head, Stock Ignition, Stock Wheels and Tire Sizes
Working Governor, Original Engine and Chassis Parts, Preferred
Factory Weights, Brackets and mounting locations, Original Drawbar,
18" or Lower Drawbar Height, Must Pull in First or Second Gear Only!

NO...

No Cut Tires, Radial Tires, Homemade Aluminum PTO Covers, No
RPM's over 10% stock RPMS, No M's, 88's and 44's below 4,500 lb
classes

OTHER.....

The idea for this class is so local farmers can bring in their tractors
straight from the fields and compete with others in their classes. We
will allow a 150lb grace weight for the different weight configurations
on these field tractors. If you know you are not a true Virgin Stock,
please sign up in the Semi Stock class to give these locals and first
timers a fair chance and good experience.

Semi Stock MUST HAVE!!!!

Wheelie Bars Strong Enough to Hold the Tractor, Kill Switch and
Flywheel Protection for RPMS up to 30% the Original Factory RPMS,
if running over 30% RPMS, you must also have a certified (signed
document) steel flywheel and clutch assembly, working governor,
Fenders, Only 50lb grace weight, Maximum 20" Drawbar Height.

No...

Tire size limit, weight configuration limits or speed limits
No M's, 88's and 44's below 4,500 lb classes

Weight Classes

2800, 3000, 3500, 4000, 4500, 5000, 5500, 6000, 7000, 8000
Can add different weight classes if sufficient entry's and interest
